## Magneti Marelli Offered by Mopar. Filter Products, Quality You Can Trust

### Top features and benefits of Magneti Marelli Filters:

#### OIL FILTERS

- Feature a high-efficiency media that absorbs and traps dirt and solid particles
- Manufactured to meet O.E. vehicle requirements and tested in accordance with standardized SAE and ISO test methods for use with synthetic and conventional motor oils
- Burst pressure exceeds 5x normal oil system operating pressure, assuring leak-free performance

#### AIR FILTERS

- Specially embossed paper pleats maximize airflow and dust-holding capabilities and help keep damaging particles from entering the engine
- Optimum ventilation through low-flow resistance to ensure consistent engine performance
- Precise fit and seal ensures only clean air reaches the engine

#### FUEL FILTERS

- Provide optimum filtration of contaminants under all operating conditions
- Designed for optimized gas mileage and highest vehicle efficiency
- Maximum safety reserves insensitive to aggressive fuels

#### CABIN FILTERS

- Low-flow resistance provides optimum ventilation inside the vehicle
- Consistent filtration performance throughout the entire service interval
- Fit and seal comparable to O.E. part specifications
- Detailed fitting instructions for easy and fast assembly
- Contain filter media specially designed to prevent dust, pollen and airborne particles (three microns or larger) from entering the passenger compartment of the vehicle

#### TRANSMISSION FILTERS

- Remove the contaminants from the transmission fluid system, reducing maintenance costs and improving transmission life
- Prevent clutch particles and metal shavings from causing internal damage

**Heavy-duty steel canister with polyester/epoxy powder paint for durable corrosion protection**

**Glass filled nylon, precision-molded center tube**

**Premium lubricated filter gasket provides a tight seal and allows for easy removal**

**Synthetic fiber blend filter element uses advanced technology for superior filtering efficiency and maximum engine protection**

**Patented bypass valve system (where required) ensures oil flow during cold starts and pressure surges**
