

AUTHENTIC PERFORMANCE

MOPAR[®] REMAN STEERING PARTS APPLICATION GUIDE

MOPAR® REMAN STEERING PARTS

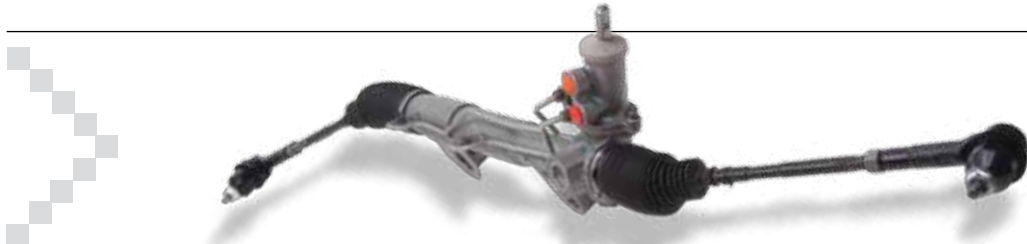

KEEP YOUR CUSTOMERS' CHRYSLER, JEEP®, DODGE OR RAM VEHICLES AUTHENTIC WITH MOPAR® REMANUFACTURED POWER STEERING PUMPS, RACK AND PINION STEERING GEARS AND POWER STEERING GEARS.

The Mopar® Remanufacturing Process returns the part to O.E. specifications to ensure the highest quality and performance, and we back our quality with a nationwide 12-month warranty. Plus, all Mopar remanufactured parts are competitively priced, providing your customers with authentic quality at a great price.

Power Steering Pumps Product Features:

- New o-rings
- New seals
- New brass seal plate
- New fiber gaskets

Every remanufactured power steering pump is performance-tested to new O.E. specifications.

Rack and Pinion Power Steering Gears Product Features:

- Gear assemblies are completely remanufactured to O.E. specifications
- All elastomer components replaced with 100% new
- All non-elastomer components are remanufactured or replaced if necessary
- Electronic sensors, modules, solenoid and pressure switches are tested to O.E. specifications and/or replaced with new, with the exception of the steering control valve solenoid
- Performance and leak tested 100% to O.E. specifications to ensure quality and performance
- Computerized functional test certification is scribed on the gear with a serial number for "safety critical" traceability
- Racks are inspected using a magnetic particle method to test for seam flaws and cracks
- All center steer take-off gears have inner tie rods with O.E. attaching hardware (bolts, plates and washers), except where noted

Power Steering Gears Product Features:

- New seals
- New gaskets
- Dual bearing design on sector shaft
- All components of remanufactured power steering gears meet O.E. specifications
