

MOPAR[®] REMAN BRAKES

LOADED ... WITH BENEFITS!

MOPAR® REMAN LOADED BRAKE CALIPERS

DON'T SETTLE — GO LOADED

New cars, luxury boats, even baked potatoes, like with most things in life, it's better to go loaded. And it's no different when it comes to brakes. Mopar® Reman Loaded Brake Calipers come complete with caliper, brake pad, clips and hardware. There are a variety of benefits to offering your customers the reman loaded brake caliper option — quality product, new brake pads and properly-matched hardware, which helps restore the brakes to like-new condition. Don't take a chance by installing second line reman parts on your customer's vehicles. To avoid short-lived shortcuts that don't feature a rigorous reman process and O.E. testing that only Mopar can provide, turn to Mopar Reman Brake Calipers — and make sure they're Loaded!

Loaded [load·ed \lō-dəd\]

adjective - Equipped with an abundance of options; having much of what is needed or wanted

THE MOPAR LOADED BRAKE CALIPER'S REMAN PROCESS:

- All parts are cleaned, sandblasted, and coated with anti-rust compounds
- Built with phenolic pistons
- All bolts, clips, brake pads and necessary hardware are replaced with brand-new parts
- Components are tested to proprietary OEM specifications

Contact your local FCA Canada Inc. dealer.
