

GET THE JOB DONE RIGHT WITH MOPAR® REBUILD KITS. EVERYTHING YOU NEED. RIGHT OUT OF THE BOX.

Mopar® Rebuild Kits are loaded with authentic O.E. components specifically engineered for FCA vehicle transmissions and differentials. They have all the parts you need for the chosen level of rebuild, guaranteed to be of higher quality with better reliability and durability over aftermarket parts. Mopar Rebuild Kits are updated to the latest factory specs so you know you're getting the best parts available. Choose from three levels of kits.

AUTOMATIC TRANSMISSION KITS

- **MOPAR OVERHAUL KITS** contain all of the necessary gaskets, seals and filters for a specific transmission application. Based on the specific transmission being rebuilt, additional parts are included, such as snap rings, converter bolts, pump bolts, check balls, pistons, retainers, pump covers and more
- **MOPAR BANNER KITS** include everything in the Overhaul Kits, plus friction plates
- **MOPAR MASTER KITS** include all the parts in the Banner Kits, plus clutch separator plates

See reverse side for additional application chart
