

reman

**A POWERFUL WAY TO
BUILD YOUR BUSINESS**

**REMAN TORQUE CONVERTER
APPLICATION GUIDE**

The Value of Mopar® Reman

Mopar® Remanufactured Torque Converters are made from a combination of new and validated O.E. components using FCA US LLC engineering and Mopar standards. This process essentially returns the part to exact O.E. specifications to ensure the highest quality and performance, all backed by a nationwide 2-year unlimited kilometres warranty. Plus, Mopar Reman parts are competitively priced, providing your customers with authentic quality at a great value.

How Mopar® Reman Torque Converters compare to the leading aftermarket competition:

- ✓ Superior balance
- ✓ Lock-up friction discs replaced 100% - never reclaimed
- ✓ Fiber washers replaced with needle bearings
- ✓ Impeller hubs always at current O.E. specifications
- ✓ Stator always completely disassembled and remanufactured with new springs and rollers
- ✓ Pistons always checked to ensure a "positive" taper
- ✓ All components mechanically and chemically cleaned
- ✓ 100% leak tested
- ✓ New bolts included where necessary

Nothing beats the quality of Mopar Reman Torque Converters.
